Plastic Safety  
Systems, Inc.

### The Wave Features:

- Durable U.V. stabilized prime polyethylene resin
- Standard lengths of 4ft, 6ft, & 8ft
- Recessed and molded through hardware holes
- Sealed board-ends

### Options:

- Plastic Barricade Boards can be ordered unsheeted\* or sheeted on single side or both sides
- Sheeting Grade Options Include: Engineer Grade, High Intensity, Prismatic or Fluorescent Grade - SEE BARRICADE BOARD DIRECTION GUIDE BELOW FOR FURTHER SHEETING OPTIONS

Right Board

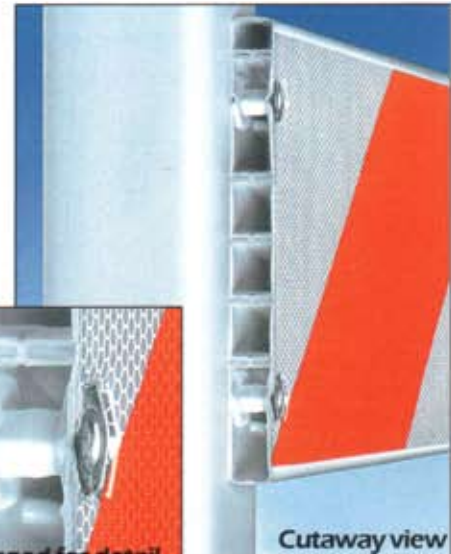

Left Board

Bi-Directional Board

\* To ensure proper sheeting adhesion on plastic substrates, the surface must be cleaned and prepared in accordance to sheeting manufacturer's specifications prior to sheeting application. Plastic Safety Systems offers this value added service to all our customers who purchase sheeted plastic barricade boards. It is our way of ensuring that you, our valued customer, have one of the highest quality and best performing products available on the market today.

### Board Profile Dimensions:

### Exclusive Features Include:

- Molded through hardware holes for added strength & ease of hardware installation.
- Recessed through holes designed for flush mounted hardware to protect sheeting.
- Sealed board-ends increase strength as well as keep out dirt & moisture.

**FLUSH MOUNTED HARDWARE KITS available, please specify board mounting application when ordering!**
