

NITE LITE™ / NITE LITE II™

REFLECTIVE FENCING WITH PROVEN PERFORMANCE

**Plastic Safety
Systems, Inc.**

NITE LITE II

ENLARGED FOR DETAIL

FEATURES:

- ❖ Continuous visual delineation
- ❖ Superior daytime visibility
- ❖ Three reflective stripes
- ❖ Lightweight and easy to install
- ❖ Rolls easily for storage
- ❖ High-durability material
- ❖ Standard roll: 4' x 50'
- ❖ U.S. Patent No. 5,865,427
- ❖ Canadian Patent No. 2,044,678

Plastic Safety Systems' **NITE LITE** fencing product line is the state-of-the-art in plastic safety fencing. Our patented design provides continuous visual delineation with three highly reflective stripes to enhance drivers' awareness of the roadway.

Available in international orange with white and/or orange reflective stripes. The bright orange color offers superior daytime visibility. Also in black with yellow reflective stripes for permanent installations such as marking dangerous curves.

Lightweight and versatile – use for work zones, highway safety, construction sites, ski trails, lift lines, crowd control.

NITE LITE fencing is made of UV-protected polyethylene plastic for long-lasting durability.

NITE LITE™ / NITE LITE II™

REFLECTIVE FENCING WITH PROVEN PERFORMANCE

Plastic Safety Systems, Inc.

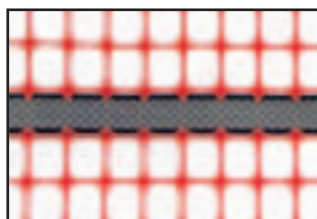

Photos shown above illustrate Nite Lite II protecting pedestrians and areas heavy with traffic.

NITE LITE & NITE LITE II:

- ❖ Creates a visual delineation to mark hazardous zones.
- ❖ Perfect for delineating fixed objects, such as utility poles, that are located close to pedestrian or vehicular traffic.
- ❖ Ideal for utility and other excavations within traffic lanes or close to the edge of the road. Also delineates pedestrian walkways.

NITE LITE II fencing is an improved version that provides all the advantages of the original Nite Lite, plus increased daytime visibility and improved durability to withstand even the harshest environments.
