**Plastic Safety Systems Introduces RoadQuake, a temporary, portable Rumble Strip.**

At a recent trade show, Plastic Safety Systems, Inc. (PSS) introduced RoadQuake™, a temporary, portable rumble strip.

RoadQuake improves work zone safety. At 11' long, 12" wide, and 13/16" thick, our rumble strip alerts drivers to reduce their speeds.

In recent field tests, drivers reduced speeds by 5-10 MPH upon approaching the set of rumble strips.

**RoadQuake is a temporary device:**

**RoadQuake does not require adhesives, epoxies, fasteners, or nails for installation.**

Crews avoid time-consuming, weather-dependent installations.

**RoadQuake is portable:**

At 105 lbs., with ergonomic handles at each end, a crew of 2 can easily carry RoadQuake by hand. A 2 person crew can also install or remove a set of 6 rumble strips in minutes.

**RoadQuake is durable:**

Made from engineered polymer materials, RoadQuake is an all-weather device, designed to withstand continual use on roadways.

For more information about RoadQuake, please call 800-662-6338, or visit our web site at [www.plasticsafety.com](http://www.plasticsafety.com).

Plastic Safety Systems, Inc., Cleveland Ohio, manufactures and markets MUTCD-compliant, NCHRP-350 certified, plastic traffic control devices for temporary and permanent applications.
